

Ngamesh Raj Bhandari

Frontend Developer

Homebush West, NSW | ngamesh15@gmail.com | (+61) 450 906 604

Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Frontend Developer with experience building responsive web applications using React.js, JavaScript, HTML5, CSS3, and modern frontend technologies. Skilled in developing reusable components, integrating REST APIs, optimizing application performance, and creating accessible user interfaces. Experienced in collaborating within Agile teams to deliver scalable and user-focused digital products.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Libraries: Axios, React Router, GSAP, Framer Motion

Backend and APIs: REST APIs, Firebase, Firebase Authentication

Databases: MySQL

Mobile Development: Flutter, Dart

Design Tools: Figma, Adobe XD, Photoshop

Version Control: Git, GitHub

Development Tools: VS Code, Vite

Core Concepts: Responsive Design, Component-Based Architecture, Accessibility, Cross-Browser Compatibility, UI Development, Performance Optimization

EXPERIENCE

•Share The Spark

Dec 2023 – Jul 2024

King's Own Institute

- Contributed to the development of a mentorship platform connecting mentors and mentees through structured session booking workflows.
- Developed frontend interfaces using React and integrated authentication, role-based access control, and scheduling features.
- Collaborated within an Agile team to deliver scalable functionality, perform testing, and support deployment activities.
- Project Repository: GitHub
- Technology Used: React.js, JavaScript, Firebase.

•Fruits Tag Internship

Jan 2022 – Mar 2022

DigiHawk

- Co-developed an interactive tagging and filtering application enabling dynamic user interactions and real-time updates.
- Implemented frontend functionality and integrated application features with backend services.
- Collaborated within an Agile team environment through sprint planning, development, and testing cycles.
- Source Code: GitHub Repository
- Technology Used: Dart, HTML, CSS.

•Nike Commercial UI Internship

May 2021 – Aug 2021

DigiHawk

- Developed responsive frontend interfaces and interactive UI components for a commercial web project.
- Implemented modern design patterns, responsive layouts, and cross-browser compatible user interfaces.
- Collaborated with designers and developers to deliver visually consistent and user-friendly experiences.
- Live Demo: Nike Commercial UI
- Source Code: GitHub Repository
- Technology Used: HTML, CSS, Bootstrap, JavaScript.

PROJECTS

•Developer Portfolio Website

Modern React-based portfolio website showcasing projects, skills, and frontend expertise.

- Designed and developed a fully responsive portfolio website using React and modern frontend development practices.
- Built reusable components, smooth animations, and interactive user experiences.
- Optimized performance, accessibility, and mobile responsiveness across devices.
- Live Demo: ngamesh.com.np
- Source Code: [GitHub Profile](#)
- Technology Used: React.js, JavaScript, CSS, Vite.

•Lakeside Hotel Booking Platform

Luxury hotel booking platform featuring immersive destination discovery and booking experiences.

- Designed and developed a responsive hotel booking platform with a focus on usability and mobile-first design.
- Built reusable frontend components, image galleries, navigation systems, and booking interfaces.
- Implemented responsive layouts and optimized performance across desktop, tablet, and mobile devices.
- Implemented interactive UI elements, responsive navigation, and booking workflows to improve usability and user engagement.
- Live Demo: [Hotel Lakeside](#)
- Source Code: [GitHub Repository](#)
- Technology Used: HTML, CSS, Bootstrap, JavaScript, jQuery.

•German to English Translator

Neural Machine Translation system using attention-based sequence models.

- Implemented Seq2Seq neural machine translation using Bahdanau Attention in PyTorch.
- Trained translation models using the Multi30K multilingual dataset.
- Utilized bidirectional GRU encoders and attention mechanisms for improved translation accuracy.
- Source Code: [GitHub Repository](#)
- Technology Used: Python, PyTorch, spaCy.

EDUCATION

•Master of Information Technology

2022 – 2024

King's Own Institute, Sydney, NSW

•Bachelor of Information Technology (Hons)

2019 – 2021

Itahari International College, Affiliated with London Metropolitan University
